sponsored by

www.jamestownshow.com.au

This year the *Sheep & Wool committee* will be *collecting data from each property* such as *bloodline, lambing months, lambing percentage and shearing date.*

This information should be received *two weeks prior to the show* and will be on display for judges, entrants and the general public.

The pen of three hoggets will be *judged on fleece weight, body weight, conformation and pen evenness.* The competition will be split into a *long and short wool* categories for judging purposes.

We encourage all entrants to attend a free farmers BBQ lunch on Sunday of the Show weekend to discuss new ideas in the sheep industry and to pass on information in the hope to improve the merino flock in our district and further afield.
